

6th April 2020**OMNIGON STATEMENT TO COVID-19**

Omnigon wishes to provide clarity on our ability as a company to supply stoma appliance products during the global COVID-19 pandemic. At this time, the pandemic is not impacting our ability to supply our stoma appliance products to customers in Australia and New Zealand. We would therefore encourage all customers to continue to order regular supply quantities.

We would also like to reassure you, Omnigon is following the recommended guidelines and taking all the appropriate measures to ensure our customers, our employees and our operations are cared for during this difficult time. We continue to monitor the situation closely and will comply with the guidance provided by the World Health Organization as well as Australian and New Zealand respective health authorities.

Again, Omnigon would like to assure the ostomy community that we have sufficient supplies stock and do not foresee any issues or concerns with being able to provide products needed during the COVID-19 outbreak.

If you have any questions or concerns, please feel free to contact our Omnigon Customer Service team by phone at 1800 819 274 (AU) or 0800 440 027 (NZ) or by email at info@omnigon.com.au.
